

## Prinzol HD.

Prinzol – HD is a conventional and heavy-duty duty pre charged Antifreeze/Coolant for heavy duty Trucks and vehicles with fully formulated and pre charged additive package.

Prinzol – HD is a concentrate mix and requires water dilution. It has a sophisticated, multi component additive system which employs synergistic combinations of inhibitors to provide you with the best corrosion protection available for heavy-duty engine cooling systems, whether in vehicles or stationary engines. It contains inhibitors that controls corrosion of steel, cast iron and aluminum and the soft or yellow metals (copper, brass and solder. It also contains antiscalants and dispersants to prevent inorganic salt scaling on heat exchange surfaces and organic fouling due to minor oil leakage into the cooling system

Prinzol – HD is pre charged and NO SCA is required at fill.

It contains no silicates, phosphates, amines or nitrates. DOES NOT contain recycled antifreeze. Meets ASTM D 6210/6211. Follow engine manufacturer's recommended service intervals.

## Specifications

- EG CONTENT 93-98%
- INHIBITORS >2%
- COLOR: Green
- SPEC GRAVITY 1.110-1.125
- pH(as is) 9.7-10.7
- FREEZE PT(as is) -34F
- BOIL PT(as is) +265F
- Meets ASTM D 6210/6211

## Cooling System Recommendations

A clean cooling system is required for the protection of your vehicle/ equipment. When changing coolant, always drain and flush your system thoroughly before refilling with recommended coolant. Maintain coolant levels properly. Always top-off with premix coolant. Change coolant regularly to remove contamination that may develop from engine gases or other fluids. Always follow manufacturers' service recommendation.
